Dear Parents/Carers,

Can you help with our garden improvement project?

Some of you may know that we successfully bagged £2,000 from Tesco's Bags of Help community grant scheme last term and we will be using the grant to improve our outdoor learning area.

Currently our Construction Area/ Builders Yard looks like this.

We would really like to develop our the area to the picture above, providing the children with more opportunities to develop their creativity and extend their play, but we need your help. £2000 doesn't go far!

Can you support our garden renovation project by donating materials or your time? Maybe if you can't then you may know someone or an employer that can? We would love to hear from you.

Please see me or the office for further details.

Yours sincerely

Claire Cobain
Headteacher
