

## Forest School at Arlesdene Nursery School

Wednesday 6<sup>th</sup> February 2019

This week at Forest School we learned about our feathered friends. We spotted birds and listened to birdsong too. We drew birds, painted a huge bird with muddy paint and made bird feeder kebabs to take home. Children really enjoyed playing in the rain and puddles too, making the most of all the glorious mud!

A great way to continue learning at home would be to watch the birds in the park or in your garden. You could even fill out the RSPB survey (before 17th Feb) to record what you see, along with many schools around the country.
