

Forest School at Arlesdene Nursery School

Monday 4th February 2019

Today at Forest school we showed how resilient we could be – staying outside on a cold, wet and windy Spring day!

We sang a Springtime song, gathered tiny treasure in an egg box and looked very closely at some buds growing. It helped the children look for and recognise signs of Spring.

We could then choose from painting with buds, sticks and fingers, tying knots, identifying twigs and dissecting buds. Some children chose to whittle a stick with an adults supervision. Next week we'll be learning about ponds in Spring and how to stay safe.
