

## Forest School at Arlesdene Nursery School

Monday 03<sup>rd</sup> June 2019

Today at Forest School the children led the way!

They explored the space we are now using over at Burleigh School Site and thought hard about how to keep ourselves safe. This is an important part of Forest School, for our children at Arlesdene are being supported to assess risk for themselves.

Today children climbed trees, swung from ropes and branches, made toys using sticks and wool, and rolled down hills. Although the pesky stinging nettles did catch a leg or two, this allowed us to look at the plant carefully, locate the risk and avoid getting stung again.

Please remember to dress your child with sun hat, long trousers and sturdy footwear (trainers are great). Encourage your child to come home with tales to tell of adventure and grass stained knees.

If you haven't already, sign up to The Wildlife Trust's 30 Days Wild Challenge, and connect with nature for the month of June (and afterwards too!!)
